Data Scientist · Fraud Analysis Specialist · ML · NLP · MLOps

diagne080894@gmail.com github.com/elhdiagne3 elhdiagne3.github.io/Portfolio

CA Permanent Resident of Canada

TECHNICAL SUMMARY

Production-oriented Data Scientist specialized in supervised machine learning, natural language processing (NLP) and production model deployment. End-to-end experience: large-scale data exploration, feature engineering, model training and evaluation, post-deployment monitoring.

Strong command of Python (Pandas, NumPy, scikit-learn, PyTorch) and SQL (PostgreSQL, BigQuery). Daily practice with Docker, MLflow, FastAPI and Git to industrialize pipelines. Sensitive to business constraints: error cost, latency, interpretability.

TECHNICAL STACK

Languages
- Python (avancé)
- SQL (avancé)
- R, Bash, Scala, SAS
- JavaScript

Machine Learning & Deep Learning
- scikit-learn, XGBoost, LightGBM
- TensorFlow, Keras, PyTorch
- Optuna

NLP & LLMs
- Hugging Face Transformers
- spaCy, NLTK
- LangChain, RAG, Embeddings

Data Engineering
- Pandas, Polars, NumPy
- PySpark, Airflow, dbt

MLOps & Deployment
- MLflow, Docker, FastAPI
- DVC, Git, GitHub Actions

Visualization & BI
- Matplotlib, Seaborn, Plotly
- Streamlit, Power BI, Tableau

Databases
- PostgreSQL, MongoDB
- BigQuery, SQLite

Cloud & Infra
- Azure Databricks, GCP
- AWS (S3, EC2, SageMaker)
- Linux, Nginx

PROFESSIONAL EXPERIENCE

Data Scientist — Fraud Analysis 2023 – Present

Real-time fraud detection on massive streams. Supervised models (XGBoost, LightGBM), PySpark feature engineering, FastAPI deployment. Reduced false positives by 35%.

Data Analyst — SAS / PySpark 2021 – 2023

Migrated SAS pipelines to PySpark. Optimized SQL queries, automated KPI reports, Power BI dashboards for business teams.

FEATURED PROJECTS

- **Water Level Forecast** — Predictive modeling of water levels (R, SQL, Time Series).

💡 Astuce : Ctrl+P → "Enregistrer au format PDF"

- **Analyse Système Éducatif** — Exploratory data analysis of education systems 2015-2022 (Python, Pandas, Matplotlib).
- **Public Health Dashboard** — Interactive public health indicators dashboard (Streamlit, Plotly).

EDUCATION

Master's in Data Science / Statistics University — 2019-2021

Bachelor's in Applied Mathematics University — 2016-2019

LANGUAGES

French (native) · English (professional) · Arabic (fluent)
